#### ***Innovation Know-how Swiss quality***

Created in 1998, the Clinic Lémanic (Lausanne - Switzerland) has become a major center of reference in the field of anti-ageing medicine, regenerative medicine, aesthetic medicine, and renown on both the national and international levels. Aiming to satisfy a demanding clientele, the Clinic Lémanic is always searching for leading edge medical solutions in order to offer its patients programs that are always more personalized and adapted to their specific requirements and needs.

#### **A CENTRE OF EXPERTISE**

Thanks to an exceptional know-how as well as use of the latest cutting- edge technologies, the Clinic Lémanic proposes innovative solutions. Today, it provides a department of dermatology and aesthetic surgery, one of the biggest EBD (Energy Based Devices) centers in Europe as well as an aesthetic medicine department dedicated to medical ageing prevention and functional medicine. Its services also include a specialist slimming and photobiomodular center. True to its excellent reputation and commitment to holistic patient care, the Clinic Lémanic was awarded the prestigious crystal trophy for Europe's best clinic in aesthetic medicine in 2010. It was further distinguished in 2012 with the IIPP's "Mérite au développement des technologies en Médecine et en Esthétique" (merit for the development of technologies in medicine and aesthetics) at UNESCO Paris.

Clinic Lémanic launched a specific program to revitalize human body and delay the aging-effects in a full natural way. To against the consequences of high stress and unhealthy diets, this treatment aims to boost your body's natural detox power, to improve your life quality. Result by having a well-being sensation, a radiant skin, better sleep, stronger nails and shiny hair, increasing libido and cognition ability.
